**Deductible Plans:**

The average cost among all patients with deductible plans is \$100. All deductible plan patients will be required to pay a \$100 deductible deposit for each applicable visit per child. Multiple items play a role in how much an office visit costs. Below are some examples. These examples are not exact or guaranteed and will vary based upon your insurance policy. Not all examples could be included in this diagram.

|  |  |
|--|--|
| Office Visit- New Patient                                  | Ranges from \$85(low complexity) to \$150(high complexity) |
| Office Visit- Established Patient                          | Ranges from \$60(low complexity) to \$125(high complexity) |
| Flu Test A&B   | Adds an additional \$30-\$45                               |
| Rapid Strep  | Adds an additional \$10-\$20                               |
| Nebulizer Treatment  | Adds an additional \$15-\$30                               |
| Antibiotic or Other Injectable Medications Given in Office | Adds an additional \$15-30                                 |

**\*Costs for any labs, diagnostic testing, durable medical equipment or treatments done outside of our office are patient’s responsibility. These costs are not associated with Pleasant Pediatrics. This includes labs that are sent from our office to LabCorp, Sonora Quest or any other laboratories.**

**\* Please check with your insurance company to verify your benefits and coverage prior to accepting a nebulizer through Neb Group of AZ. Pleasant Pediatrics is not responsible for any costs incurred by utilizing Neb Group of AZ. These costs are not associated with Pleasant Pediatrics or the office visit. Neb Group of AZ will bill your insurance directly.**
